

# CERAMOSIDES™

Youthful skin from within

SEPPIC

Ingredients that inspire

## A new beauty secret

Beauty from within is where cosmetics and nutrition meet. It is the new way to take care of our skin from the inside out with **full body coverage**.

Skin youth and hydration depends on key lipids called ceramides. When aging, we start losing ceramides, resulting in dry and itchy skin, pulling sensations and wrinkles.

Taking phytoceramides orally helps restore the skin's ceramides content. It is the ultimate moisturizer for smooth and youthful skin, replenishing the wrinkles and giving a healthy glow.

## CERAMOSIDES™ the most powerful source of phytoceramides

CERAMOSIDES™ has been developed to provide an efficient source of oral phytoceramides:

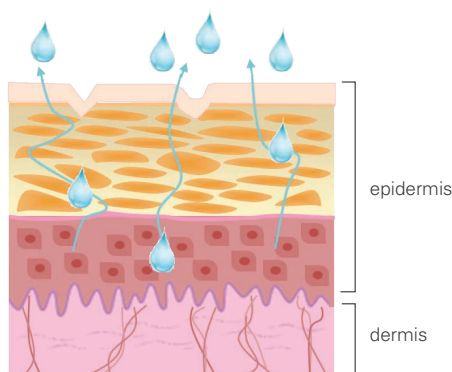

- **Highly concentrated** source of phytoceramides from wheat
  - Contains a **booster of efficacy**: digalactosyl diglycerides (DGDG)
  - Natural, vegan and **gluten free** (in accordance with FDA and EU regulations)
  - No GMO, no additives and no preservatives

## Working from inside out

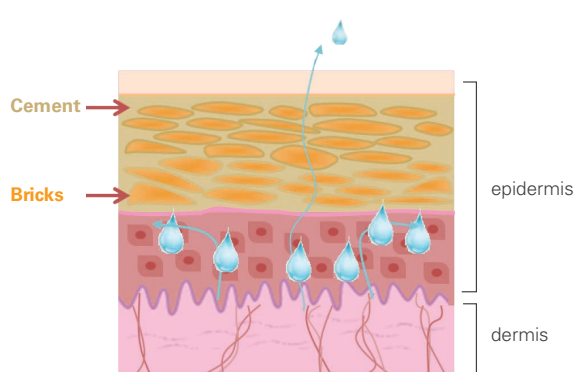

Skin epidermis is constituted of cells looking like « bricks ». Ceramides are the major constituent of the cement between these bricks and play a key role in the barrier function of the skin.

Ceramide content naturally decrease with age and during winter. When there are not enough ceramides, water is lost through the epidermis resulting in skin dryness and aging.

CERAMOSIDES™ brings new ceramides to the skin via the bloodstream and helps restore the water barrier and replenish cracks. Skin gets more hydrated and plump.

WITHOUT CERAMOSIDES™

WITH CERAMOSIDES™

## Product characteristics

Grade	Light brown oil	Hydro-dispersible powder
Total Phytoceramides	≥ 15%	≥ 50%
Digalactosyl diglycerides	≥ 15%	≥ 40%
Recommended dose	<b>70mg/day</b>	<b>30mg/day</b>
Use	Softgel capsules, gummies	Tablets, hard capsules, powder sticks, beverages, gummies

## Clinically studied action

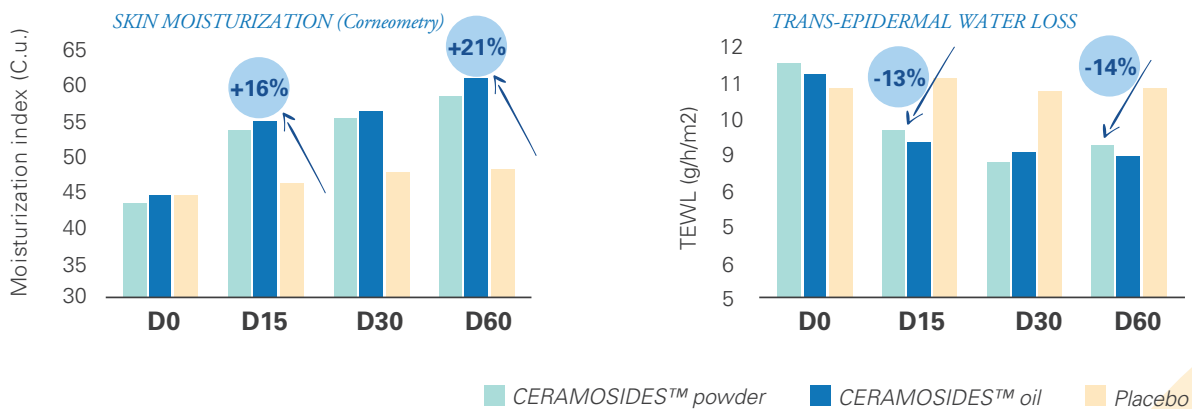

CERAMOSIDES™ action has been scientifically proven by 2 clinical studies. A state of the art randomized double blind placebo controlled clinical trial showed outstanding significant results in only...

**15** days with as little as **30** mg of CERAMOSIDES™ Powder or **70** mg of CERAMOSIDES™ Oil

## A strong skin hydration effect

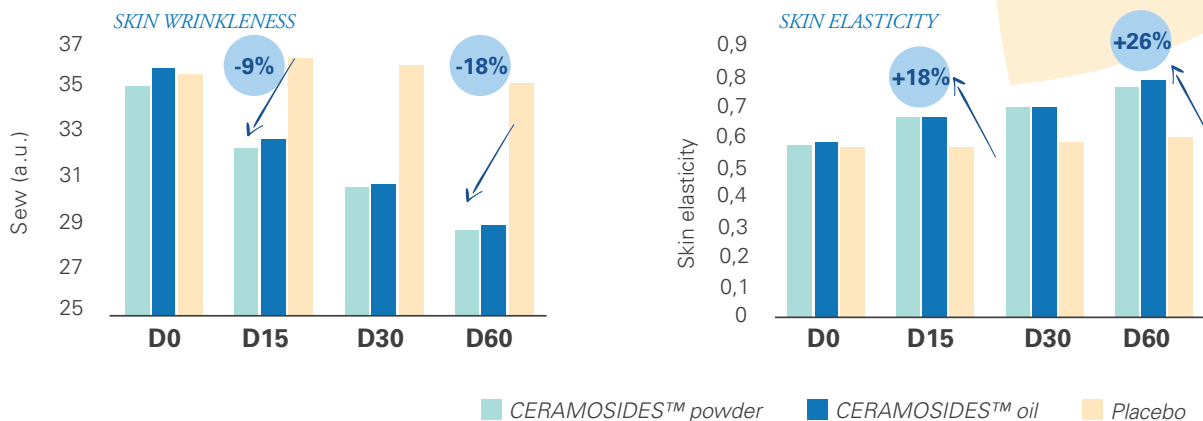

It is clinically proven that CERAMOSIDES™ Oil and Powder significantly improves skin moisturization by more than 16% vs placebo in only 15 days (23% vs. baseline), and more than 21% vs. placebo after 2 months (36% vs. baseline). Significant results were also observed when measuring the trans-epidermal water loss.

CERAMOSIDES™ efficacy was also perceived by the subjects: 75% of them felt less pulling sensations and 80% noticed a reduction of scales while 75% of the subjects who took a placebo didn't feel any improvement.

## An exclusive anti-aging action

The double blind clinical trial showed that reduction of wrinkles is significant after 2 weeks and skin elasticity is improved by more than 18% vs. placebo in only 15 days (15% vs. baseline), and more than 26% vs. placebo after 2 months (36% vs. baseline).

80% of treated subjects felt an improved skin appearance while 65% of the subjects who took a placebo didn't feel any improvement.

## CERAMOSIDES™ in brief

Results in 15 days

Gluten Free

Vegan

Natural- Organic grade available

No GMO - No additives - No preservatives

Sourced and Manufactured in France

NDI with no objection letter- GRAS status

Approved for use in Food Supplements in the EU  
Possibility of beauty claims\*

\* According to Guidelines from Food Supplements Europe, claims such as " Improve the appearance of wrinkles " or " Help to improve skin elasticity " should be possible for formulations containing Ceramosides™ in the EU. Indeed these claims can be regarded as 'beauty claims', supported by clinical trials results and falling outside of the scope of the 1924/2006 Regulation, as they do not refer to a function of the body as expressed by EFSA in several of its scientific opinions.

## Multiple benefits for multiple formulations

CERAMOSIDES™ is a perfectly adapted solution for modern consumers that are looking for new ways to address anti-aging with demonstrated efficacy and quick action. It can be used in various nutricosmetics formulations, including men, mature or atopic skin products.

CERAMOSIDES™ is available in both powder and oil at a low recommended daily dose. It can be easily incorporated in various dosage forms, such as tablets, capsules, softgels, as well as gummies, drinks and powder sticks.
